

Auburn Water Rates

The Auburn City Commission does an annual review of both the costs of water and sewer before each new budget year. The primary causes for an increase is a change in the cost of wholesale water cost from the City of and Midland, capital improvements in the water fund and increases for capital improvements at the Bay County Sewer Plant in the Sewer Fund. Additionally, the city's water and sewer rates support the operations of maintenance of the city's water and sewer systems, including labor, replacement and improvements to the systems. There is no planned increase in water or sewer rates for the 2015-2016 budget year.
